

DESCRIZIONE

**Serie HDM**

5inch screen digital Turntable / additional DAC required

**HDM-01**      458,20      **559**

5inch screen Hifi streamer with WM8741 decoder

**HDM-03**      1.023,77      **1.249**

**Serie UDS**

Extreme performance of hardware configuration

UDS Series Stream Servers have unprecedented powerful performance, and also have the top high performance of hardware configuration (ARM + FPGA + DSP + ES9018 \* 2 decoder + WM8741 \* 2 decoder, ES9018 and WM8741 D/A converter for each channel, Dual Differential coupling for optimal performance), using three groups independent clock oscillator (44.1KHz, 48KHz, and DSD) format which is developed specifically for digital audio to ensure that the clock performance makes low clock jitter and phase noise - Phase Jitter  $\pm 1\text{kHz} - 150\text{ dBc/Hz}$  (Typ). The ultimate audio format

Support more digital audio formats, including DSD/DTS/PCM (FLAC, DSD/ISO/DIFF/DSF, APE, AIFF, Apple Lossless(ALAC), AAC, etc), and support PCM 32Bit/768KHz, DSD 2.8M-5.6M superhigh stream audio formats. All of the signal adopt source output to process hardware decoding, offering outstanding dynamic performance. The ultimate user experience

Supporting WIFI Direct control DLNA and Airplay (without Router) and support for multiple platforms Remote APP - Android/IOS/Windows PC/Mac. The network control protocol through optimization can be compatible with more audio formats Remote control, such as DSD/difi, dsf formats etc. Personalized Internet radio

Easy to use Internet radio. It supports internet radio station logo display, radio recording, allowing users to manually add radio stations in the background and creating personalized playlists as well as other handy applications;

All of the audio parameter settings

Support all of the audio parameters settings, including ES9018, WM8741 PCM and DSD formats digital filter modes, phase, output level, S / P DIF input and output ,Analogue recording format, etc the complete DAC

**UDS-1**      1.269,67      **1.549**

**DESCRIZIONE**

7inch screen with DAC ESS9018 support iso /768khz DXD
